

2017-2018 BYOD SIGN ON INSTRUCTIONS

iPad

1. Find and then Tap Settings on main screen
2. Tap WI-FI
3. Choose BYOD from list on right
4. Device will prompt you to enter your BYOD User-ID and Password. Key in the user-id and password on the label at the bottom of the BYOD Permission form
5. Your device is now registered and you will not have to key the BYOD user-id and password again

Chromebook

1. Move cursor to System tray in lower right hand corner
2. Click the arrow next to the WI-FI Connection listed in the box that appears
3. Click on BYOD
4. Device will prompt you to enter your BYOD User-ID and Password. Key in the user-id and password on the label at the bottom of the BYOD Permission form
5. Your device is now registered and you will not have to key the BYOD user-id and password again

Android Device

1. Drag the control settings down by dragging your finger from the top of the device downward
2. Tap on WI-FI settings (Signal strength indicator on top left)
3. Tap on BYOD in the list
4. Device will indicate you are connected
5. Go to a browser and try to navigate to cnn.com
6. Device will prompt you to enter your BYOD User-ID and Password. Key in the user-id and password on the label at the bottom of the BYOD Permission form
7. Your device is now registered and you will not have to key the BYOD user-id and password again

Older Kindle

1. Press Menu Button
2. Move cursor to WI-FI Setting – View – Press Select Button
3. Move cursor to BYOD Network – Press Select Button
4. You will get a prompt indicating a sign-in is required. “go to browser” will be highlighted - press select button.
5. Device will prompt you to enter your BYOD User-ID and Password. Key in the user-id and password on the label at the bottom of the BYOD Permission form
6. Your device is now registered and you will not have to key the BYOD user-id and password again

Notes:

1. If you get an error when browsing to cnn.com, just close the browser and try again. It should work the second time.
2. You may have to go back to the WI-FI connection screen and reselect BYOD
3. If you continue to experience errors, contact the St. Mary support desk at support@stmaryhc.org
